19<sup>th</sup> January 2021

Dear Parent/Carer

## Confirmed Case of Covid-19 at Little Hill Primary School v2

We have been made aware that we have a confirmed positive case of coronavirus (COVID-19) at Little Hill Primary School.

We have followed the national guidance and have identified that your child is in the **Year 1 Bubble** with the individual who has had a positive test result for coronavirus. In line with the national guidance we believe your child must stay at home and self-isolate until **Monday 25<sup>th</sup> January 2021**.

If your child is well at the end of the period of self-isolation, then they can return to usual activities on Tuesday 26<sup>th</sup> January 2021.

Other members of your household can continue normal activities provided your child does not develop symptoms within the self-isolation period.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person

<https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

## What to do if your child develops symptoms of COVID 19

Having been identified as a close contact, if your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared and take a NHS PCR Test. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119 .

People who do not have symptoms should not request a test unless this has been specifically requested by Public Health England or the local authority.

All other household members who remain well must stay at home and not leave the house for 10 days. This includes anyone in your 'Support Bubble'.

The 10-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication,

Little Hill Primary School is part of the OWLS Academy Trust: an exempt charity and a company limited by guarantee, registered in England. Company Number: 8537140; Registered office: Langmoor Primary School, Kenilworth Drive, Oadby, Leicester, LE2 5HS.

or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 10 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period

## Symptoms

The most important symptoms of coronavirus (COVID-19) are recent onset of any of the following:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

**For most people, coronavirus (COVID-19) will be a mild illness.**

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

## How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

*Do*

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

## Further Information

Further information is available at
