

Summer of STEM: Bright Ideas and Sunny Discoveries

A summer filled with creativity and innovation. Explore digital storytelling and sustainable energies through vibrant STEM activities for the bright minds of tomorrow.

The Aveea Experience

Global Inspirations, Local Innovations

From Japan to Cyprus, our workshops blend coding and chemistry with worldwide insights.

Harmonising Technology Creativity

Where art meets tech: digital music, animation and AI stories, enrich our STEM explorations.

Term Highlight: Progress Feedback

Now with enhanced personal feedback, track your child's development through their STEM adventure.
